EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Jeffrey Waters (Reg. No. 53,749).

Claims 3 and 16 have been amended as follows:

3. The apparatus of claim 1, wherein said XIP tracker monitors the usage of the XIP applications in the one of the at least two memory devices to generate the XIP usage data and stores the XIP usage data in an XIP usage table.

16. The method of claim 14, where said tracking usage of XIP applications stored in the at least two flash memories to generate XIP usage data comprises updating said XIP usage data as usage changes over time.

Art Unit: 2186

The following is an examiner's statement of reasons for allowance:

The affidavit under 37 CFR 1.132 filed 8/7/2006 is sufficient to overcome the §102(e) rejection of claims 1-19,21-23, and 25-29 based upon Hatakar (U.S. Patent Application Publication No. 2004/0088701) and the §103(a) rejection of claim 20 as being unpatentable over Hatakar.

As such, claims 1-29 are allowable over the prior art of record.

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.

Wells et al. (U.S. Patent No. 5,754,817) teaches a method for managing a XIP program by virtual mapping non-sequential XIP program instructions into a sequential ordering, but does not specifically teach or suggest each of the limitations of independent claims 1,14,25, and 28.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
